PROFESSIONAL SUMMARY

Staff Product Designer with 10+ years of experience across B2B and B2B2C SaaS, specializing in design systems, 0-to-1 product design, and cross-functional collaboration. Led marketplace growth, rebrands, and platform unification across product, brand, and marketing systems, and actively builds fluency in AI-assisted workflows.

WORK EXPERIENCE

Director of Product Design | Qwick, Remote | Jun 2025 – Feb 2026
B2B, B2B2C SaaS, Staffing Marketplace (Web + iOS/Android)

- Led post-merger design for Gigpro + Qwick, unifying product, brand, and marketing across web, mobile, and CMS.
- Executed a 6-month, 27-market product unification and feature-parity rollout.
- Directed brand reskin and design system governance across the Pro app, Business platform, and marketing site.
- Led operations, compliance, and marketplace health features supporting W2 worker capabilities.
- Supported new product development using Figma Make to prototype early concepts.

Director of Product Design | Gigpro, Remote | Apr 2022 – May 2025
B2B, B2B2C SaaS, Staffing Marketplace (Web + iOS/Android)

- Led product, brand, and marketing design for a two-sided staffing platform across business web, Pro mobile, and marketing site.
- Directed two brand evolutions and one acquisition integration, establishing a modular design system and governance guidelines.
- Shipped 85+ features and launched new products including Hire, Engage, and Connect.
- Rebuilt the marketing site from Duda to Contentful in under 2 months, reducing engineering and design dependency.
- Drove revenue growth from $4.1M to $15.5M, paid gigs up 299%, and fill rate above 85%.

Senior Product Designer | Airtime, Remote | Nov 2021 – Apr 2022
B2B Communications, Video Presentation & Collaboration Tools

- Designed engaging experiences for Airtime Creator, a video presentation and collaboration tool for virtual calls and events, using proofs-of-concept and prototypes to validate concepts and inform product strategy and roadmap.

Senior Product Designer | Stable Kernel, Remote | Aug 2021 – Nov 2021
Enterprise Workflow Tools, Kitchen Display Systems & Fulfillment

- Led UX research and design for Chick-fil-A's Kitchen Production System, reimagining front-of-house bagging and order fulfillment.
- Directed the project end to end, from field research and team member/operator interviews through ideation, interactive Figma prototyping, and testing touch, bump bar, and hybrid interaction models; findings informed roadmap recommendations including clearer order status indicators, simplified additions/omissions formatting, and a card-based track layout for order tickets.

Senior Product Designer | Attentive, Remote | Jan 2021 – Apr 2021
B2B SaaS, Mobile Messaging, SMS Marketing, Marketing Automation

- Designed 0-to-1 conversational messaging features (Automated Replies, two-way steps) for SMS/MMS to drive engagement and sales, collaborating across design, product, and engineering to research, prototype, and test automation capabilities.

Senior Product Designer | FullStory, Atlanta | Jan 2019 – Dec 2020
B2B SaaS, UX & Analytics, Digital Analytics, Session Replay

- Led design for core product areas including Dashboards and Metrics, and owned end-to-end design for FullStory's Technology & Solutions Portal for customers and partners.
- Created and implemented FullStory's first design system (Figma + Storybook), partnering with front-end engineering to improve design consistency, developer productivity, and long-term scalability.

Lead UX/UI Designer | PureCars, Atlanta | Jan 2018 – Jan 2019
B2B Marketing Platform, B2C E-Commerce Mobile App, Data Analytics, Digital Advertising

- Led design and launch of multiple 0-to-1 products on the Labs team: Signal Pro (multi-channel attribution analytics for automotive marketers), Signal Insights (partner analytics app), and Joyride (consumer mobile car-buying app).
- Translated complex advertising, inventory, and shopper-behavior data into clear, actionable dashboards and mobile experiences for dealers and end users.

UX Designer | Digital Scientists, Alpharetta | May 2016 – Jan 2018
B2B SaaS, UX & Analytics, Digital Analytics, Session Replay

- Led MVP design for Mailchimp's omnichannel marketing platform, laying the groundwork for Landing Pages, Direct Mail, Shoppable Pages, and Ad Network.
- Designed 0-to-1 products for enterprise accounts, small businesses, and local startups across marketing automation and e-commerce

---
